

AYLESBURY WELCOME REPAIR CAFE

From sewing and
textile repairs.....

to ceramics....

bikes...

and electrical
repairs.

**Bucks repair cafes
fixed over 3,000
items in 2025!**

THANK YOU

Message from Buckinghamshire Council's Buckinghamshire Recycles:

2025 was another fantastic year of repairing, with more than 3,000 items being repaired at the Bucks cafes. Well done to all the Repair Cafes and the volunteers who give up their time to help keep items in use instead of going to waste. Next time something you have breaks, think repair - there are over 20 regular repair cafes to choose from.

AYLESBURY WELCOME REPAIR CAFE

Our next session: Saturday 28th February, 9.30-12.30

This is what happened at January's Repair Café:

Andy sharpened a dozen garden tools. Jennie glued several camel-riding Santa's plus a couple of giraffes and a soap stone hippo. Peter cracked the mystery of a broken barometer, a clock, soldered connections on a garage key fob and a star projector. Sadly, Thomas the Tank engine had a burnt-out motor.

Steve fixed a fan, cleaned up kettle connections and a wall clock. John sorted out an extension lead and PAT tested electricals, plus tightened new bolts on a table football game. Gary fashioned an axle for a ceramic moped ornament, replaced screws in spectacles, fixed a pin badge and a small fruit knife blade. Sarah spent time showing people round their sewing machines, diagnosing, doing some maintenance and fixing where possible. Reesha hand sewed ripped coat seams, skirt elastic, replaced a coat rivet popper. Sue altered straps on two dresses, and a pair of trousers.

Albert and Alex kept the admin in order. Margaret & Vivienne served the coffees with amazing smiles and style.
